

OSAC Scholarship Application Update

Apply for Grants and Scholarships at OregonStudentAid.gov!

2016-17 Academic Year

Scholarship “matching” has been improved! As students complete their scholarship application profile, our system will identify recommended or possible matches.

The scholarship selection section has been updated with the following tabs:

1. **My Selections** - scholarships selected by the applicant
2. **Recommended** - the applicant’s possible “matches” based on questions answered in their application
3. **Memberships** - all applicants should search the employer and membership list to ensure potential scholarship opportunities are identified
4. **All Scholarships** – complete catalog listing with key word search

Applicants will have access to their prior year **Personal Statements** and **Activities Chart**. It is very important to update these each year. *Selection committees prefer to see updated information.*

Sections of the application will remain “editable” after application submission:

Editable until March 1, 5:00 pm	Editable year-round
Activities Chart	Contact Information
Personal Statements	College Choice
Scholarship Selection	Major

- The **transcript upload** page is now located directly after the high school/college history page.
- The transcript section of the application is locked when the application enters the review process or after the application deadline, whichever comes first.
- Applicants who have submitted an **invalid transcript** may be allowed to upload a corrected transcript.

High school juniors (2017 graduates) – create a “test” application to get a head start on next year’s application!

Free Materials Now Available for Ordering

OSAC offers materials with important scholarship and financial aid information, deadlines, and websites. Order at: OregonStudentAid.gov/resources-publications-info.aspx.

For deadlines and other important information please visit: OregonStudentAid.gov or give us a call at 541-687-7400, 800-452-8807
